EDUCATION

B. TECH IN COMPUTER SCIENCE AND ENGINEERING

ASSAM ENGINEERING COLLEGE
JALUKBARI, GUWAHATI

2020 - 2024

AISSCE

DELHI PUBLIC SCHOOL, DIGBOI

2018 - 2020

AISSE

THE LITTLE STARS SR. SEC. SCHOOL
DIGBOI

2007 - 2018

ACHIEVEMENTS

2nd at Algosmash, Royal Global University
3rd at Codewar, Assam Engineering College
Technical Head in Coding Club ,AEC
State Entrance Examination, CEE Rank : 192
JEE AIR : 114452 NTA SCORE : 89.334228
GATE SCORE: 472 GATE RANK: 3784

SKILLS

Programming : C/C++, JavaScript, TypeScript, Java, Python, SQL/MySQL

Backend/Web: Node.js, React.js, Angular, Spring Boot, REST APIs, HTML, CSS

DevOps & Tools: Docker, Kubernetes, Helm, GitHub Actions, CI/CD, GitOps, ArgoCD, FluxCD, KubeVela, Nginx, Trivy

Operating Systems: Linux (proficient in command-line and system administration)

Core: DSA, OOP, System Design, Database Design, Testing

EXPERIENCE

- **Software Engineer : Siemens STSPL** Aug 2025 - Present
 - Build and improve enterprise backend and platform engineering workflows with a focus on automation, reliability and developer experience.
 - Work with Kubernetes, GitOps, CI/CD, Helm, Docker, and cloud-native tooling to streamline software delivery and environment provisioning.
 - Maintain and extend developer-portal/scaffolder automation and reusable delivery templates.
- **Apprentice Technical : Siemens STSPL** Aug 2024 - Aug 2025
 - Built backend solutions during technical training and contributed to the SiLC demonstration project.
 - Developed practical foundations in backend engineering, containerization, Kubernetes, GitOps, and CI/CD.
- **Backend Development Intern : Xopun Tech** Jul 2023 - Sep 2023
 - Developed RESTful backend services with Spring Boot, implementing CRUD operations, authentication, and database integration
- **Machine Learning Intern : NIELIT** Aug 2022 - Sep 2022
 - Worked with Python-based machine-learning algorithms and data-analysis techniques.

PROJECTS

- **Cloud-Native Portfolio :** Production-style portfolio with GitHub Actions CI/CD, Trivy image scanning, GHCR publishing, Kubernetes manifests, Helm packaging, and GitOps delivery.(React, TypeScript, Docker, Kubernetes, Helm, ArgoCD, FluxCD)
- **Attendance Management System :** Full-stack attendance tracking application with backend APIs, responsive UI, real-time updates, and reporting. (Angular, Spring Boot, TypeScript, Java, PostgreSQL)
- **Library Management System :** Backend application for library operations with authentication, catalog management, secure CRUD APIs, and database integration.(Spring Boot, Java, MySQL, Spring Security)
